

Zhaques Labuschagne

Full Stack Developer | Java Enthusiast | Problem Solver

 082 454 4638 | ZA South African |  Zhaques2001@gmail.com

Professional Summary

Curious, innovative, and driven — I'm a full stack developer passionate about building practical, scalable solutions. My experience spans front-end and back-end development, including Java, C#, JavaScript, HTML/CSS, Node.js, and AngularJS. I thrive in dynamic environments where problem-solving, creative thinking, and collaboration are key.

Whether crafting responsive web applications or automating workflows, I bring a hands-on mindset, strong work ethic, and entrepreneurial vision. I'm currently sharpening my skills with the goal of becoming a top-tier developer and future tech leader.

Technical Skills

- Languages: Java, C#, JavaScript, HTML5, CSS3, TypeScript, Python
- Frameworks & Tools: Node.js, AngularJS, Bootstrap
- Database: MySQL (basic), MongoDB (basic)
- Version Control: Git
- Other: Agile principles, UX-focused development, REST APIs
