

To the Hiring Manager,

I am writing to express my interest in the software developer position advertised. With a background in full stack web and software development, including proficiency in Java, C#, JavaScript, HTML, CSS, Bootstrap, Node.js, and Angular.js. I am excited about the opportunity to contribute my skills and expertise to your team.

My experience in both front-end and back-end development makes me well-equipped to tackle the challenges of creating cutting-edge web and software solutions. I am dedicated to finding innovative solutions and eager to learn from experienced developers to further enhance my skills.

I am particularly passionate about Java programming and am committed to becoming as proficient as possible in this language. I am enthusiastic about the prospect of diving into this profession and am eager to demonstrate my abilities.

I am available for an interview at your earliest convenience and look forward to discussing how my background, skills, and enthusiasm align with the goals of your team.

Sincerely,

NJ Labuschagne (Zhaques)

WORK EXPERIENCE

Restaurant Work (2017-2019)	Worked as a waiter at various restaurants for pocket money and business experience.
Vacation work on a high-production lettuce farm (2020-2021)	Worked as a student on a farm where lettuce is grown. Here I got to deal with the planting of new plants as well as their growth process and harvesting. The application of fertilizer and the plant's water needs were very interesting and educational for me. The logistics around product packaging, cooling, and delivery to clients are also familiar to me.
Training as a junior manager at a photo frame production centre (Part-time)	Here I had the opportunity to learn about the production of photo frames as a junior manager. I also kept the store's website up to date with the latest information. The process from receiving orders to delivering the product is well known to me.
